

APP Assessor™: Data Sheet

Edways are pleased to announce that we will now be supporting Primary and Secondary schools with the Assessment for Learning Strategy with the development of our new product "APP Assessor™".

What is APP Assessor™?

APP Assessor™ is an exciting new web application that will revolutionise the way that schools enter, track and report on data generated from the Assessing Pupils' Progress (APP) approach to periodic assessment of all subjects at Key Stages 1-3.

Key Features of APP Assessor™

- An electronic way of entering, tracking and reporting on data generated from APP assessments:
 - Electronic data entry screen modelled on the DCSF standard paper-based forms.
 - Easily add assessment data by simply clicking on the form.
 - Easily add evidence of observed behaviours using our dynamic interface.
 - Traffic light system visually highlights which objects pupils have achieved, are working towards or have not achieved.
 - Centralised database provides the ability to query pupil data in complex ways to identify gaps in teaching and learning and adjust planning accordingly.
 - Automatically calculates overall level judgements from best-fit judgement entries using the DCSF criteria.
 - On-demand generation of summative reports (e.g. end of year/key stage), showing pupil progress.
 - Quickly identify individual, cohort and whole school strengths and weaknesses.
 - Easily enables individual, cohort and whole school target setting for pupil progression as an integral part of Assessment for Learning.
 - Easily communicate shared information about pupils (IEP, SEN, Attendance and other significant factors that may impact upon pupil progress).

- Easily track level attainment percentages of significant groups of pupils (e.g. by gender, ethnicity, looked after children etc.), feeding into Every Child Matters.
-
- Use APP Assessor™ across all National Curriculum subject areas:
 - Fully complies with the APP assessment criteria prescribed by the DCSF for:
 - English (Reading and Writing): KS1-KS3
 - Mathematics: KS1-KS3
 - ICT: KS3
 - Science: KS3
- Use APP in subject areas not currently supported by DCSF
 - APP Assessor to create a custom APP Assessment framework to track pupil progress in any subject area using our default criteria (where they exist) or create your own.
- Track pupils on an individual basis or optionally use Representative Groups to reduce data entry time if you wish
 - Add APP Assessment data to one pupil and generate level data for all other pupils in their Representative Group.
 - Move pupils in and out of Representative groups as required.
- A secure web application:
 - Hosted by Edways, so no on-site infrastructure, setup or maintenance costs for your school.
 - Web interface customised with your school name and logo.
 - Access your data anytime you want, anywhere you want using 128-bit encrypted secure web access.
 - Always work with the latest version of the software that incorporates the latest additions/changes to National Curriculum Attainment Targets.
 - All data is secured using methods that fulfil Data Protection, e-GIF, Becta and DCSF standards for off-site pupil data storage and security.
- 2010 and 2012 Government requirements for Real-time Reporting.
 - Enables secure online parental access to pupil data.
- Easy administration:
 - Easily add/edit and remove individual pupils, or bulk upload from existing systems.

- transfer pupils and their data between teachers, classes, year groups and other schools running APP Assessor™.
- Clear and open pricing:
 - Only £1 per pupil per year to access all features in the core module
 - License costs cover use of APP Assessor across all DCSF subject areas, so costs can be shared between Departments.
 - Only pay for the number of pupils you need - we only charge per block of 10 pupils, not 50+.
 - No obligation free trials available. Contact us for more details.

What do you want from APP Assessor™?

We have achieved great successes in the past by partnering closely with our customers. These relationships enable our customers to help mould the development of new applications, ensuring that we deliver exactly what you need - as well as securing discounted license costs and extended free trials.

Please visit www.edways.com, contact us at enquiries@edways.com or call us today on 0800 610 1005 for more details or to get involved in shaping APP Assessor™ to suit your needs.
